A Guide to the XBOX

E-Safety

A guide to keeping safe when playing on an XBOX

XBOX ONE ONLINE SAFETY AND PRIVACY SETTINGS FOR PARENTS AND CHILDREN

Xbox One has age-appropriate controls and settings that you can adjust to suit your family's needs. Access these settings from either Xbox.com or an Xbox One console – although you can only change content and app settings from the console.

CONSOLE CHANGE PRIVACY AND SAFETY SETTINGS FOR YOU OR A CHILD

1. Sign into your Xbox. (If you're changing the settings for a child, sign in using an adult's account.)
2. Scroll left on the Home screen to open the guide.
3. Select **Settings > All Settings.**

For your account:

1. Under **Privacy & online safety**, select **Xbox Live privacy**.
2. Choose a default or customise your settings by selecting **View details & customise.**
For a child's account:
1. Under **Account,** select **Family.**
2. Enter your password or passkey, then select the account that you want to update.
3. Select **Privacy & online safety**, then choose the default settings, or customise by selecting **View details & customise**.

MANAGING APP PRIVACY SETTINGS

When you download apps from Microsoft Store, each app requires permission to access data from your console.
1. On your Xbox One console, select **Settings > Privacy & online safety > App privacy.**
2. From the list, select what you'd like to give permission for by ticking the checkboxes.
 If you're signed in with a child account, you'll need your parent to sign in and give permission for apps to access your data.
1. Sign in with an adult's account.
2. Go **to Settings > Family.**

3. Select the child account that you'd like to manage and go to **Privacy & online safety > App privacy** to give permission.

NOTE
 • If multiple gamers are signed in, apps can only access data that everyone has given permission for.

• When you give apps permission on a console, it's only saved on that console. If you use multiple consoles, make sure you give your apps permission on all your consoles.
